About the position

The **Czech Technical University (CTU) in Prague** is inviting applications for postdoc positions in the following areas of computer science: **computer vision and pattern recognition, machine learning, artificial intelligence, autonomous systems and robotics, biomedical informatics, interactive computer graphics, high-performance computing and big data, theoretical computer science, and cybersecurity**. The researcher will be supported by the Research Center for Informatics, a recently awarded **EU-funded center of excellence** run by internationally renowned professors with worldwide impact.

Candidates

We seek candidates with a relevant PhD degree, an appropriate publication track, and a strong motivation to **pursue excellent research** and publish in **first-tier scientific conferences and journals**. Good command of **English is necessary**. The working environment operates in English, knowledge of the Czech language is not needed.

Salary and workplace

Successful candidates will get a monthly salary in the range of **2-3 thousand EUR** (the Czech Republic cost of living is at 59% of the US price level by OECD statistics). Depending on the chosen CS field, they will work at **CTU's downtown campus or its main campus which features a range of amenities** such as the National Technical Library, and a **laid-back atmosphere** with cafes and other social hangout places.

Why Prague?

Prague was **TripAdvisor's #7,#8, and #11 world's top destination** in the years 2017-19. Beautiful mountain landscapes and historic cities are within hours of travel. Owing to Czechia's **Schengen-area membership**, numerous exquisite European destinations can be reached from Prague with no border restrictions or delays. Our teams take great joy in **social and savoir-vivre activities**.

Apply now!

Please submit your **CV and a motivation letter** to our HR Manager Katarina Ťakušová at **katarina.takusova@fel.cvut.cz** detailing your aptitude for research.
